Situation Report: Earthquake Disaster

Weather Condition: 3 circumstance in a day (Cloudy, heavy rainfall and Sunny)

On April 25, 2015, massive earthquake measuring 7.9 on Richter scale that rocked the Himalayan nation has affected all over the country, mostly affecting central region which includes capital city Kathmandu, and historical places like Bhaktapur, Lalitpur. More than 7,000 persons have suffered injuries after being buried under the collapsed structure.

An NEOC official estimated that more than 6.6 million people were directly affected and over one million of them rendered homeless. Most of the affected families are desperately waiting for the relief and response, although rescue efforts are under way, there were also report of lack of coordination among government agencies responsible for search and rescue operations. People from the worst hit district namely Kavre, Sindhupalchok, Nuwakot, Gorkha and Dhading have complained of dealyed aid. As authorities have failed to reach many VDCs, the toll is expected to reach further.

Above 16,000 doctors, nurses and health workers are providing medical services to the injured from the hospitals and health camps. Most the hospitals are completely occupied, there are no further rooms for the casulties so the patients are transferred to the open grounds where special health teams are organised for the services. Likewise, people are worried to stay inside their houses due to the uncertain of the quake believing it will return again, so nearly all of them are residing in the tents in open area.

In response to the disaster, Rotary District 3292 Nepal-Bhutan, Rotary Club of Dhulikhel coordinating with GCF-USA/CDRA Nepal , District Disaster Relief Committee-Kavre district is implementing Earthquake disaster response with basic food survival package including.

1. Rice 7 Kg,	2. Masala 3 pkts
3. Lintel 1Kg	4. Steel plate 5 pcs
5. Food grain 1 kg	6. Spoon 5 pcs
7. Salt 1 pkt	8. Plastic jug 1 pc
9. Cooking oil 1 ltr	10. Plastic bucket 1 pc
11. Beaten rice 1 Kg	12. Noodles 1 pkt

Total package cost Rs. 1,765/- now we are providing 1000 set of above mentioned items to be delivered to the victims affected by recent earthquake. Rotary Club of Dhulikhel/ CDRA Nepal team is working hard to response the situation. We believe that this will support 5 members family to survive 7 days. Rotary is coordinating many international Rotary clubs to support the people in need.

We thank you very much for generous support to our GCF friends and Rotary friends worldwide for your cooperation on the difficult situation.

Preparing more food package and looking for more tents to buy in Nepal markets. There is scarcity to find the goods. However, we are working with neighboring Rotary and Lions network to get things in place.

What we did today (29 April, 2015)?

- ✓ 28 sets relief pack Baluwa Village, Kavre
- ✓ 5 sets relief pack Teen Piple, Pachkhal
- ✓ 7 sets relief pack Gairigaun, Panauti
- ✓ 40 sets relief pack Shyampati Village, Kavre
- ✓ 40 sets relief pack Pakucha, Thakle
- ✓ 100 sets relief pack Banepa Municipality, Banepa
- ✓ 50 sets relief pack Dhulikhel Municipality, Dhulikhel

Rotary meeting held in Dhulikhel 29 April for quick response.

At 9 am today, immediate meeting was organized by the members of Rotary Club of Dhulikhel for further plans to distribute the relief food packs to the victims as quick as possible. Mr. David Waterhouse, Past President of Terigal Rotary Club of Australia and Mrs Diana Waterhouse, Coordinator RYLA, Australia was also invited in the meeting, they express about raising funds for the situation communicating to their club members back in Australia.

Although, there were only few members, but the discussion was endless, all have their one ideas and view to aid the needy ones. Similarly, Rotarians also discussed whom to help at first, where should we go for relief, there is lack of supplies so from where should we need to purchase goods and the members were allocated for their responsibilities to reach the victims as early as possible.

They decided to help the people in their area first and then move far because resource is limited, needed help is unlimited. There is also good news, various Rotary Clubs and NGOs around the globe deeply express to join hands with Dhulikhel Rotary Club to response and rehabilitate the victims.

Story of a Brave Girl

Eight year girl from Baluwa village, Kavre was acted like a super girl when massive earthquake happened; her 2 months old sister was alone sleeping in the spare room and the girl was playing with her friends' just outside her home and her father and mother were working on the field at that time. In such deadly situation, without being afraid she went to bring the small sister and save her life. Beside is her collapsed house which was destructed by the Quake. Our Salute to this Danwar girl.

Map 1: Major 15 earthquake affected districts

Casualties in Nepal (Till 29 April):

Total toll: 4,785 Injured: 9,95
